Privacy diamond lattice trellis sheet

- Stylish lattice sheet designed to provide privacy and enhance outdoor spaces.
- Durable, weather-resistant, and ideal for gardens, balconies, and fences.

Poly hex mesh

- Strong and flexible plastic mesh with hexagonal holes.
- Used for fencing, gardening, and protecting plants or animals.

Concertina Coils

- Razor-sharp security coils designed for high-level perimeter protection.
- Made from galvanized steel for durability, corrosion resistance, and easy installation.

Chain Link Fencing

- Chain-link fences are cheap, strong, and easy to install.
- They let light and air through and help keep areas secure.

Poultry Mesh

- Galvanized mesh is strong, does not rust, and is great for keeping poultry safe.
- It is easy to set up and lasts a long time outdoors

Chicken Hexagonal Wire Mesh

- Chicken wire is thin, flexible wire with small hexagon holes, mainly used for animal fences
- It is also used in building to hold plaster or cement and helps stop cracks

PVC Coated Chain Link

- PVC coated chain link fencing is strong, rust-resistant, and lasts a long time outdoors.
- It comes in different sizes and colors, and is easy to install for home, garden, or industrial use.

Barbed wire

- Sharp-edged fencing wire designed for strong boundary protection.
- Durable, easy to install, and ideal for agricultural and industrial fencing.

Tata “T” Angle

- Strong and durable steel “T” angles used for fence support and structure.
- Ensures long-lasting stability and easy installation for all types of fencing.

TataKnotted Fence

- High-tensile, rust-resistant fencing designed for maximum strength and durability.
- Ideal for farms, boundaries, and industrial areas with easy installation and long life.

GI Wire

- Galvanized Iron (GI) Wire with high strength and corrosion resistance.
- Widely used for fencing, binding, and general industrial applications.

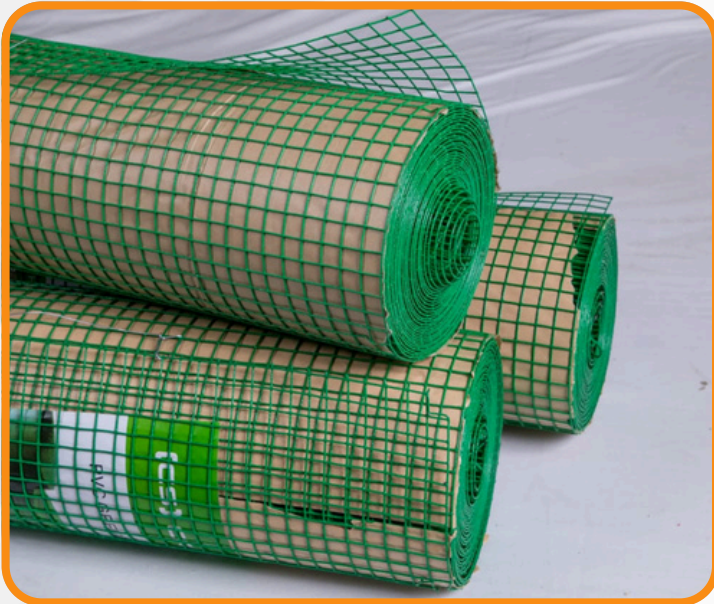

PVC Wire

- Flexible and durable wire coated with PVC for extra protection and long life.
- Commonly used in fencing, construction, and electrical applications.

Shaded Net

- Shading nets protect plants from too much sun, heat, wind, and pests.
- They help plants grow well by keeping the air and soil moist and the temperature just right.

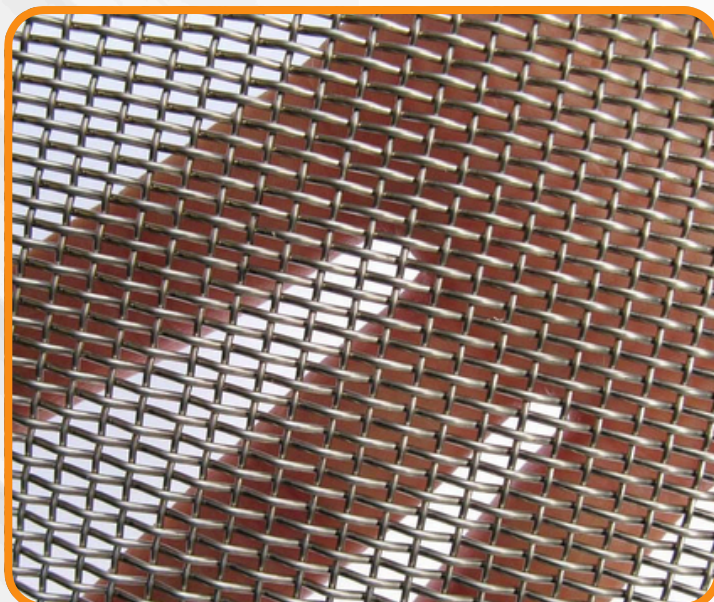

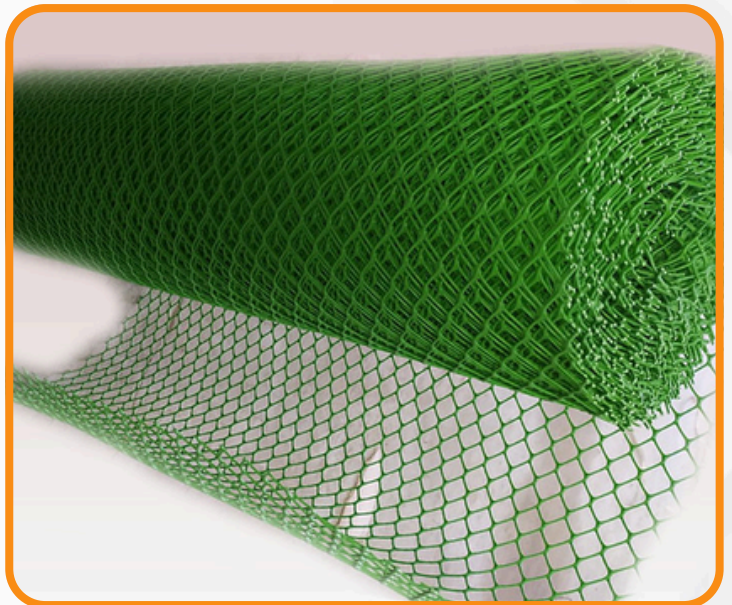

PVC Green Wire Mesh

- PVC coating keeps the mesh strong and rust-free for a long time.
- Great for fencing and gardens because it is easy to use and lasts outdoors.

Plastic Mesh Net

- Does not rust and is suitable for outdoor use.
- Brightly colored and easy to install as safety fencing or insect net.

Wire Mesh

- Versatile mesh made from high-quality metal wires for strength and durability.
- Commonly used in construction, fencing, filtration, and industrial applications.

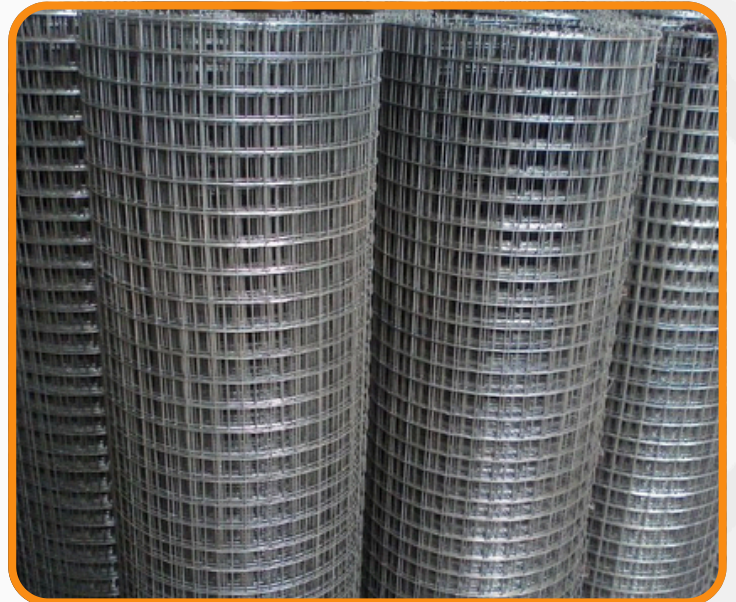

Fish Net

- Strong and flexible net designed for effective fishing and aquaculture use.
- Made from durable, weather-resistant material for long life and reliability.

MS Weld Mesh

- MS Welded Mesh is strong and does not rust easily.
- It has even gaps, saves money, and is easy to use outdoors

GI Weld Mesh

- Rust-resistant and long-lasting for outdoor and indoor use.
- Strong and reliable for fencing, construction, and security needs
